SUBJECT.

Appeal of Hanumanthra gouda of Basara-halli, Hoskote taluk regarding the grant of certain Kharab land in the Gottipura Village

W D 1250—GPB—30,000 - 28-1-19

Examined Indexed

The petitioners are the ryots of the Jodi Village of Basavakalli and they have applied for 150 acres out of S.No 52 of (Sirkar) Gottigura Village. In the petition, this land was described as Kharab but from the Deputy Commissioners report and the Revenue records, it appears that Survey No 52 is the only gomal land of the Gottigura Village

It has been found that a portion of S. No 52 measuring 251 acres 37 gunthas is well adapted for sandalwood plantation. The Amildar reported that allowing 70 acres as gomal to the village, the rest (214 a. + 37 gunthas) might be reserved as plantation. The Deputy Commissioner remitted this report to the District Forest Officer for a detailed report after inspection as the sanction of the Govt for the reservation had to be obtained. There is nothing in the records to show how far this matter has progressed since then. The Amildar has also stated that there are 36 acres and 7 gunthas of

Should not have entered himself with base reports.

The reports of J. Q. is preposterous. In question of this kind the responsible head of the Dept who has so many subordinates & consults a Committee would have been a positive gain in shielding the Govt from misrepresentation. [illegible] had traced it history thro the different stages, seen the work by himself, considered the claims of the contending parties & given intelligent decision as to how the work should be carried out & act.

In the first place an important depositor like the Lowest line is entitled to the privileges & the Engineer should not have recommended a decision on the points on which we could have litigated & which are left in dispute by the two reports as to

assessed waste in the Saltpura Village

It is well understood rule – though not expressly laid down in the L.R. Rules that zemindaree waste should be alienated pro-rata with the assessed waste in the village when it is thrown that the assessed waste are encroachments situated in cultivation

The main feature in the case is however the claim of a portion of the land (Survey No. 52/11) for a sandal plantation. Whether it has ever been granted will have to be ascertained in the Forest Department

Yours truly
Esther D.

As the D.J. Comm^rs' report
was not sufficiently full,
he was requested to report
on the following points

(1) The extent of the 2 Maps
(2) The extent of the cultivated
Land, assessed waste & pasture
in each
(3) The no of houses, population,
and no of cattle, sheep & goats

(5) The extent of the proposed land
to be planted with trees
for a period of which the ryots
of Dasanhalli wish to be relieved

Whether the proposal is so likely
to add as to make it's grant
absolutely undesirable

(6) Whether there is any objection
in principle to the whole
or no ~~any~~ portion (minus the
roads and areas proposed to be given
as ground) as a forest.

(7) How the trust has been
conducted, who planted the
trees & what is the nature
of the trees; what duty
the agency employed by the
Villagers & how it was
remunerated. Have the
Villagers any special interest
in regard to the use of
the Village trees?

(8) Having marked off the wooded
portion would it not be
desirable to give the ryots of

Dasarahalli the land they
desire for garden cultivation

The Dy Comm^r was also
requested to send a
sketch of the no. of the village
maps

In reply to the above
the Dy Comm^r forwards
a memo. of the 3rd grand
Asst. Comm^r in which the
Dy Comm^r agrees - on the
several points noted in
the above

The Asst. Comm^r agrees
at the conclusion that
no portion of the gomal
number can be demarcated
from the rest & granted for
garden cultivation

His reasons are that
the present jungle must
be conserved to keep up the
rainfall, that no pathis
of the survey no can be
done to be undertaken
that the jungle prevents
the land ('Pullum) from
being silted up'

A sketch of the land & the
village maps are also sent
with the Record

22. The 18-9-27 petitioners represented that the land that they cultivated by the Forest Department should be given to them for cultivation:-

(1) that petitioners have applied for the Forest Land.

(2) that they have not received land for cultivation and land for pasture in their village.

(3). That the applicant sold forty acres of Khasal land

(4). That in addition to the land applied for there were 100 acres of Khasal land which could be easily used as pasture land for the [illegible] village cattle.

(5). That the forest officer applied for additional land for the reasons mentioned in his report. In addition to the village common pasture.

(6). That the land in question does not contain any valuable timber but contains only a few Sandal trees. That for the reasons mentioned the forest officer recommended the grant of the land and that the Dy. Commr agreed in toto.

23. The Dy. Comr. forwarded the above petition with his report. Obtained the papers from the District Forest officer and the Tahsildar. The case is put up with the report called for.

declining to fell the trees in question, I was required to read the record of the evidence taken thereon. Accordingly I submitted the record to the Conservator's report (as required) in my favour & while I could not find that the Conservator had in any way exceeded his powers in the matter, I could not find that the evidence adduced by the petitioners was sufficient to warrant me in saying that any interference with the rights of the petitioners was necessary in the interests of forestry & I therefore refused the petitioners' application.

I did not feel any hesitation in this case. I should not, because I was required to do so and also because I was sure that the Conservator had done all that he could to protect the interests of forestry & that the petitioners had failed to establish their case.

As regards (a), the Dy Comm^r Mr V N Narasimmaiyya appears to have pardhis taken reasons to grant any pardhis for subtraction before obtaining the opinion of the DI Forest Officer

In his yadi dt 22/3/98 the DI Forest Officer gives out his opinion as adverse to the grant of any pardhis of the land for subtraction but it is not clear who the DI Forest Officer is, the Superintendent Levy Range Mysore It is also not clear whether the opinion was formed after a local

With reference to the 2nd Conservator's order the records were sent to the Conservator of Forests with a request that he would favor us with his opinion about the reservation of Survey No. 52 of Poltejura village applied for cultivation and house building purposes as a forest.

No. 1621/100 of 28-10-24.

In reply the above officer states: "I have no hesitation in advising that the decision of the Dy. Conservator of Forests, Sattari Range, be upheld and no portion of Survey No. 52 of Poltejura village be given to the Dasarahalli villagers for garden cultivation, but a few acres not exceeding 10 might be granted as house sites if absolutely necessary from the portion immediately adjoining the Dasarahalli village boundary."

for the grant of a portion of land out of S. No 52 of the Govt: village of Gottipura on the ground that there is not enough land for cultivation and for building purposes in your Govt village of Dasandahalli.

The ryots of Gottipura object to the land being granted to you. The Deputy Commr: in his order No 14 of 7-6-96 states that the land could not be granted to you, that a portion of it should be kept apart as pasture land for the ryots of Gottipura village and that the remaining portion should be kept as Forest Reserve. So the land applied for could not be granted to you.

The grounds of appeal are as follows:—

(1). That petrs being Vigilars are professional garden cultivators
(2). That they have not enough land for cultivation and building purposes in their own village.
(3) That they applied only for 100 acres of kharab land.
(4). That in addition to the land applied for there were 200 acres of kharab land, which could be easily used as pasture land for the Gottipura village cattle.
(5). That the grant of the land applied for to them would give an annual revenue of about Rs 500 to Govt, in addition to the facility afforded for building a new village.
(6) That the land in question does not contain any thick jungle, but only contains a few sandalwood plants. That on the ground the Amildar recommended the grant of the land.
(7) and That the Dy Commr's order is therefore unjust.

Pray that the Dy Commrs order may be cancelled and that the land applied for may be granted to them at the rate fixed for Bagayat lands, if necessary by means of public auction, to facilitate their cultivation and building purposes.

The petrs are the ryots of the Jodi Village of Dasarawadi & they have applied for 1 or 2 acres out of the No 52 of (Sirkar) Gothpura Village. In the petn, this Land is described as 'Khanal' but from the Dy Comm's report & the Vernacular record, it appears that No 52 is the only Land of Gothpura Village (Serial No 1 in the Register)

It has been found that a portion (measuring 2 84 acres & 37 guntas) of No 52 is well wooded (now) forming a Sandal wood Plantation. The Sandal wood Plantation Committee reported that although the land is not included in the Village Forest (2/14 a & 379) might be reserved as a plantation. The Dy Comr remitted this report to the Forest Officer for a detailed report after inspection as the Sandal wood Plantation Committee has no power to interfere with the Forests. The Forest Officer has not yet submitted his report. The petrs are therefore requested to wait for the reservation being effected. There is nothing to be objected in the Records to show how far this petition has prospered since then (Vide Para 3) the petitioner has also stated that there are 36 acres & 7 guntas of

D. No. 1307/

To

The Secretary to the Govt. of Mysore
General and Revenue Depts.

Sir,

With reference to your Official memo No. Rct 795 of the 3rd January 1898, forwarding for report a petition from Hanumanta Gowda and others of Dasarhalli in the Hoskote Taluk praying for the grant to them of certain lands of the Gottipura village, I have the honor to state as follows.

On 2nd August 1895 a petition was received from certain ryots residing in the said Jodi Dasara halli village, in which they stated that there were no unoccupied lands in the village available for cultivation and that further they had no houses to live in, and prayed for the grant of about 200 acres of land out of Survey No. 52 of the

Government village of Gottipura

A counter petition was received from certain ryots of the latter (Gottipura) village objecting to the grant of the land, on the ground that the land was part of the gomal land of their village and that there was a very large number of sandalwood and other valuable trees on it. After some correspondence on the subject, the late Deputy Commissioner inspected the locality and on the 9th June 1896 decided that the land should not be given over for cultivation, but a portion where there were a few trees should be utilised as the village gomal and the remainder reserved for a sandalwood plantation. It is against this order that the present appeal has been preferred.

3. The vernacular papers relating to the subject are herewith submitted together with the petition under report.

I have the honor to be
Sir

Court regret to observe that the report of the Commissioner is perfunctory. In questions of this kind the responsible head of the Dept who has so many interests to consult and conciliate should have a great help to Court in deciding the question now before it, if, ~~without confining himself to giving the bare outlines of the case~~, he had traced its history through the different stages, seen the locality himself, considered the claims of the contending parties and given an intelligent opinion as to how he would wish the Court to act.

(31) Do there any objection in reserving the whole of the 170 minus the 70 and add acres proposed to the queen for grant, as a state forest. How has it been conserved, what was the agency employed by the villages and how was it remunerated. Have the villagers had any special privileges in regard to the produce of the village forest beyond right of grazing.

(32) would the Dy Comr reserve the forest for the use of the villagers and would they conserve it. Would it not then be de- sirable to dispense with

Sir,

With reference to Government order No. 2086 of the 21st May 1898, Rev. No. 18 stating that my report on the petition of Hanamantégowda and others of the Jodi village of Basavahalli in the Hoskote Taluk was peremptory and that I, as the responsible head of the District having so many interests to consult and conciliate, should not have contented myself with a bare report, but should have seen the locality in question and given an intelligent opinion as to how I would wish the Government to act, I beg to submit as follows:-

2. This is not a matter disposed of by me, but by my predecessor. On the appeal of the party dissatisfied with his decision declining to give the land in question, I was required to send the record of

the case with a report thereon.
Accordingly, I submitted the
record together with such report
(or resume) as my humble ability
enabled me to draw up. I did
not visit the locality, as I had only
been asked to send the record
with a report, and as my predecessor
had seen the locality in company
with all the parties and recorded
an order, in extenso, in his own hand
in English fully setting forth his
views and opinions and his
reasons for rejecting the application
of the petitioners.-

3. I did not give my opinion,
as to how the Government should
act because I was not required
to do so and also because I was
under the impression that I should
not venture to do so in a matter
on appeal from an order passed
here and that too by my predecessor.

4. Further information wanted by Government is contained in the enclosed memo of the 3rd Assistant Commissioner. A sketch of the land in question is appended to it.

5. The record of the case is herewith returned.
